**APPLICANT'S COMMENTS ON EXAMINER'S STATEMENT OF REASONS FOR
ALLOWANCE**

Although the Examiner's statement quotes most of the limitations of the independent apparatus claim, patentability of the claimed invention should be considered as a whole. And the invention is as defined in the claims, not as characterized by the Examiner. Finally, although not mentioned by the Examiner, the method claims and dependent apparatus claims each include additional patentable limitations that further define the invention.

Customer No. 20575

Respectfully submitted,
MARGER JOHNSON & McCOLLOM, P.C.
